INTRODUCING

One Club. One Family. From NI7 London, to billions across the globe, We're proud to have over 650 Official Supporters' Clubs.

With our remastered OSC logo, we've created these guidelines so you can bring the Tottenham Hotspur brand to life around the world.

Our Name

In a world full of Uniteds, Citys and Rovers, there is only one Hotspur, Tottenham Hotspur.

Therefore the Club should always be referred to in full as Tottenham Hotspur or Tottenham Hotspur Football Club.

Sometimes using our name in full can feel too formal and of course to our fans, we are 'Spurs', so we can use this shortened version when talking to them.

Our Tagline

Our motto 'To Dare Is To Do' comes from the Latin 'Audere est Facere'.

It's the flag we march under.

That urges us to be brave and go beyond.

To embrace risks and rise to challenges.

Official Spurs Supporters' Club

Official Supporters' Club Badge

Our Official Supporters' Club logo has been refreshed and optimised to bring together our Brand Logo and SPURS wordmark.

By using a more simplified silhouette of our cockerel housed in a protective shield, we can improve visibility and enhance recognition of our truly iconic logo.

The SPURS wordmark supplements this with retained legibility, creating a unique badge for our Supporters' Clubs around the world to wear with pride.

Colour palette Overview

Ever since our home kit from 1898, the signature combination of Lilywhite and Spurs Navy have always been our core set of colours, and remain ever present to this day across everything we do at Tottenham Hotspur.

They are supported with bold and vibrant secondary colours that are rooted in our history. The use of these secondary colours are more frequent when we talk about campaigns, initiatives and experiences beyond football.

The darker colour tones are used to give definition and contrast in our gradients and patterns. These are also recommended for on-screen colour accessibility.

Type setting & hierarchy

As a general guide, our range of typefaces should be used with the following type setting principles:

Headlines

For large scale headlines we use Spurs Display. Headlines are set with tight leading at 80% of the typesize (e.g. 100pt typesize x 0.8 = 80pt leading). Always ensure the kerning is set to metrics with tracking at 0.

Body text

For body text we use Arial. Leading is set to 120% of the typesize (e.g. 15pt typesize x 1.2 = 18pt). Headlines
